She also elaborated on aspects related to first impression such as wearing good clothes, presenting ourselves, grooming and etiquettes and other self-enhancing techniques. She then explained the ABCD of self-image; A- appearance which includes one’s wardrobe, hair etc., B- behaviour which includes one’s attitude, confidence etc., C-communication, which can be verbal, non-verbal and written and D-digital footprints, which is the image that people create by looking

at a person's social media like Facebook, Instagram etc and how these platforms help create a first impression before anything else.

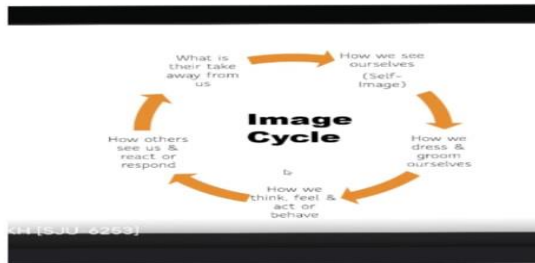

She emphasized on the importance of dressing up formally and urged the students to understand their role and dress according to that. She also stressed on creating an 'I brand' and mentioned several personalities who have made themselves 'brands'. She elaborated on this by telling the students that if they're a brand, then people would want to invest in them.
