MESSAGE FROM THE CHAIRMAN

SHRI. M.S. KAMAT

The new academic year 2023-24 opens new vistas of excellence in higher education in the State of Goa through the implementation of NEP 2020. The New Year holds forth the promise of a NEW DEAL in higher education as also in other sectors of education whereby the learners stand to have access to high quality, multidisciplinary and choice-based education, which will be a pathway to faster progress, brighter success and sustained prosperity.

Murgaon Education Society's College of Arts & Commerce was renamed on the 09th February, 2023 as Murgaon Education Society's Vasant Joshi College of Arts & Commerce. Late Shri. Vasant Joshi was the founding father of Murgaon Education Society and its College of Arts & Commerce. He stood high and tall as a humanist, a philanthropist and a visionary, with the good of the Society at large at his heart. Generations after generations of students of the College bearing his illustrious name will leave the portals of their Alma Mater with a rich package of knowledge, skills and values; and in addition, the finest qualities of head and heart which the founding father of the College steadfastly stood for.

The founding father insisted that education in our College ought to be student centric and student friendly, it should be a source of joy and a fountain of creativity. The College authorities and the staff leave no stone unturned to follow his directive in letter and spirit.

Dear students and esteemed parents, please rest assured that the New Academic Year 2023-24 will certainly be happy for the students, satisfying for the parents and rewarding for the authorities and the staff of the Vasant Joshi College of Arts & Commerce.

50 Years of the College

The journey of Murgaon Education Society began on 23rd August 1971, under the Chairmanship of late Shri Vasantrao Joshi and several enlightened persons, in the Joshi building at F. L. Gomes Road, Vasco-da-Gama. It was established to serve the youth of Goa, particularly the youth from the Port Town, with affordable and high-quality education.

The College was shifted to its current campus in Zuarinagar, in June 1985. Since then, the barren Zuarinagar plateau has undergone significant transformation. With the initiation of measures like afforestation, rainwater harvesting, vermicompost and the recent installation of solar panels, the College provides an eco-friendly environment to our faculty, students and visitors. The infrastructure of the College grew at a steady pace over the years.

In order to provide quality education to the students of the Port Town, a Higher Secondary School with 4 streams: Arts, Commerce, Science, Vocational and an Institute of Management Studies were set up subsequently. The College section initially began with BA and BCOM programs and expanded to a Computer Applications Course, as well as the Course in Management, the BCA and BBA (General) programs were introduced. An industry specific Diploma course in Shipping Management was instituted which has now been replaced with a Graduate degree (BBA) in Shipping & Logistics. A Postgraduate Degree, MCOM was also introduced in 2016.

Over the last 50 years, the College and Higher Secondary Section have been the alma mater for many young men and women from humble economic and social backgrounds. The alumni have indeed risen to great heights and excelled in fields, ranging from education to banking, business to public administration, rendering their service to society and Goa.

The College has had a smooth transition from the traditional ‘chalk and blackboard’ method, to the OHP method and more recently, to Audio-visual teaching and the use of the LCD Projector. The college has further advanced in terms of technological progress, with the launching of Smartboards in some classes. The College has also gone a step ahead in extending the use of the campus to the community at large. It has allowed people in the vicinity to utilize the infrastructure and facilities, such as, the Basketball court, library, etc, while also being a venue for professional examinations.

The flag of MES continues to fly high, with achievements by the Faculty in several areas of research, expertise and Co-curricular activities. Our students have excelled in terms of NSS, NCC Navy and Army, as well as in Sports.

The College has celebrated its Golden Jubilee year and has been renamed as ‘*MES Vasant Joshi College of Arts & Commerce – Zuarinagar*’, to honour the philanthropic work of our Founder Late Shri. Vasant Joshi.

This year with the implementation of the National Education Policy (NEP 2020), the future of education seems more innovative and flexible for the students to choose their courses.

The road ahead for the next 50 years proves to be very promising with the help of the Management, Faculty and students.

ALUMNI TESTIMONIALS

B.B.A.

I remember myself as a gawky teenager who had come from science stream to join BBA (which was the inaugural year of the BBA course in Goa) in the year 2000. Frankly, I had joined BBA course as a stop-gap arrangement. As science students, you had to wait for 4 rounds of admissions to see if you can get a medical / engineering / dental / pharma course via Goa Board. But as time went by & under the tutelage of Late Dr. Sreekumar who was the pioneer behind the introduction of BBA course in Goa university we realized that we are standing on the cusp of a revolution in academics. This course was a paradigm shift from the usual classroom methodology which was prevalent at that time. From the usual memorize & rote, we had moved to understand & internalize. Most of our tests involved open book tests, presentations & problem-solving. Hence it was a welcome shift from just filling answer sheets from memory. The ability testing was done by how we could find own solutions to the management problems thrown at us. More importantly, group assignments were the norm. The 2-month industry internship was an On-the-Job experience which very few courses provided at that time. To sum it up I owe it to the BBA course at MES College, for inculcating in me problem solving, leadership, team management, presentation skills & an outlook which made adaptable and relevant for the industry.

Batch 2000-03

Selecting BBA at the graduate level has been the best decision I've taken. Of course credit goes to my father who found out in detail advantages of this course as it was a new course in Goa. Being the 2nd batch, we were the proverbial rabbits in the lab, no complaints though. This course develops the overall personality of a student. It did shape mine. The curriculum is designed in a way to help students to think on their own, which the rote learning method doesn't allow you to. Subjects like Cultural studies, Ethics - widens one's perspective about art/culture/ social welfare/ acceptance of other cultures more openly etc. It helps each one think to own their own which has helped me at my work. Most employers look for candidates who will take responsibility and act, rather than approach the manager for every problem. The course also encourages students to speak up their views rather than sit cooly. This again is a useful skill for corporate life. Unless you express your viewpoints or share information, nobody will recognize you. Stage fear, Presentation skills/ solving cases/ applying concepts learned in practical life, this is something which has stayed with me since my graduation. Grooming is one more aspect, which is of utmost importance in life. Be it the soft skills or mock interviews, dining etiquettes, have been helpful too. As the course promises it equips the students with managerial / leadership skills. I'm glad I chose BBA, as it has certainly helped me horn my hidden skills and learn new things. As a working professional from the shipping industry, I may not have been able to apply learned concepts like statistics/POM, finance in my chosen field. However it's the soft skills, problem-solving attitude polished during BBA days, basic knowledge of subjects which are of paramount importance in corporate life, and I have immensely gained from it.

Siddhi Salgaonkar
Batch 2001-04

BBA at MES College, has helped me in shaping my career and giving me a different outlook to work life. First and foremost, it influenced my approach, giving me a non-theoretical, practical and application based outlook to every task. I learnt to apply myself in a situation and look for practical solutions. Secondly, it familiarized me with presentation skills, group discussions and the spirit of teamwork. Thirdly, enabled me to understand the corporate world much before actually starting work through internship programs, case-studies and lectures by Guest Faculty working in large companies. In addition, participation in national level management festivals and contests boost my confidence on a personal and professional level.

Sunita Salunke
Batch 2003-06

My experience has been a fabulous one. BBA as a course at MES College & its teachers have provided an environment for learning & development on a more practical level. We were prepared to face different situations in the corporate world at a very early stage. The 3 years doing the BBA course were probably the best years of my life, not only was I supported to take part in sports on a state level but also I was pushed to take up a leaders role for various events. BBA has changed me in a lot of ways, but the most important would be it provided me with knowledge & confidence. Opportunities to work with various entrepreneurs and senior level managers, their stories feedbacks have all been very valuable lessons for me as an entrepreneur now.

Abeesh Koshy
Batch 2003-06

As every little education brings changes. BBA at MES College, has also brought many changes in me. It groomed me well in the fields like public speaking, research, organizational behavior, psychology etc. Overall it improved my self-confidence.

Shrijit Nair
Batch 2004-2007

BBA course has played a major role in my life. I believe I have made the best use of various opportunities provided during this three years course of BBA. Internships, participating in management events, organising our very own event i.e. Lakshya 12 was the best learning experience throughout this course. Well, I would say BBA has added value to my career. I see a lot of growth in myself in terms of skills, knowledge, handling stress and most importantly dealing with different kinds of people. The challenging aspect was dealing with my own classmates but eventually, I have learned to accept this challenge in a positive way because I knew I'm learning something which will surely help me in future. BBA gave me an opportunity to network with various other college students during management events. This opportunity of networking is very helpful as it has created a platform for me to share my knowledge and to learn from their experiences. Overall I would say that the change is effective and positive.

G.V. Aishwarya
TYBBA Batch 2016-19

The courses offered under the BBA programme have not only been instrumental in ameliorating my professional skills but also in enhancing my personal capabilities. The plethora of courses offered assisted me to make informed choice about my future course of actions. My graduation in BBA has been one of the instrumental elements in developing my personality not just for the job market but also for being a responsible citizen.

Anthony Gomes
Batch 2010-14

BBA course at MES College, has definitely changed me from what I was before I joined and what I am today. Well the course is just 30% of what I learned the rest 70% is all because of the numerous business management events I have taken part in through the BBA course. BBA gives the students the opportunity to open yourself and conquer the fears which drive you down, fears when it comes to public speaking, communication, managing stress, being efficient and effective and most importantly time management. Honestly 10th and 12th grade wasn't helpful at all. Parents forcing their children to study well, get good grades is not it. Send your kids for these courses such as BBA will make you the human being that can stand on his or her own feet. BBA, as it has minimal theory and more or practices like presentations, debates, role plays, cases, creative thinking, etc. helps the students not only to deal with the situation but also makes them aware of what the real world outside is. BBA is a course that develops students not to work for someone else but also to become entrepreneurs. The summer internships boost the students, and with this, they get to experience in the real world, which other course doesn't offer I guess so. So overall to tell u frankly BBA has changed my thinking of life ahead.

Logan Henriques
Batch 2015-18

The course has provided me with a sense of liberty in exploring my passion for different management fields ranging from HR, Marketing, Finance, Digital Marketing to Entrepreneurship. The perfect combination of Corporate exposure and theoretical knowledge. All in the span of 3 years. It has shaped me into the man I am today and the confidence I exude. The kind of encouragement I have received from this institute to bolster my academic knowledge as well as my overall personality has been phenomenal.

Abbas Shaik
TYBBA Batch 2016- 19

Goa Management Association's Best Management Student 2018-19 awardee

I believe it was BBA course that made me what I am today, it taught me some really important things in life over and above the subject matter. For example, it gave me the confidence to speak and discuss my ideas and thoughts with people. Subjects like case analysis made me sit on the decision-making chair and reflect on how the people involved would have thought and this has transpired into my daily routine. It also helped me develop a habit of reading news and stay updated with current affairs.

Shivdas Nair
Batch 2007-10

BBA has changed my outlook towards education from the old school books to interacting with industry professionals and participation in management competitions. Skills like spoken communication and presentation skills developed rapidly as I went through this BBA journey. The biggest change I saw in myself after joining BBA was that I became more aware of what's happening around in the world, I started having my own views and opinions about things which before I was never concerned was. This made me realize how we are connected with everything that happens around, it shows me the importance of being aware and being informed. In conclusion, I would state that the overall objective of this course is to impart the knowledge of business and managerial skills to students and prepare them for their entry into the Corporate World where they can cruise on the right path of hope and light.

Vinayak Naik
TYBBA Batch 2016-19

My Experience doing BBA at MES College, was terrific, it gave me a lot of insight into many subjects. The course covers all the aspects one requires either for higher education or for a job. Internships are another step towards experiencing the reality of work atmosphere. The BBA course, has helped in being more confident as a person especially in terms of communication, presentation and being adaptable to any situations of life.

ALUMNI TESTIMONIALS

B.B.A. - SHIPPING & LOGISTICS

The BBA (Shipping and Logistics) course offered at MES College is the only course in the whole of India. The curriculum is better than most of the other graduation courses. It helped me gain a deep understanding of the way teams work and the qualities required to effectively lead a group. The course also encouraged me to think on my feet, which boosted my overall confidence.

Frazer Coelho

Batch 2013-16

I had a great and memorable three years in BBA (Shipping & Logistics) at MES college of Arts and Commerce. BBA (S&L) course offered me an opportunity to acquire professional skills in the early stage of my management studies. The course helped me to deeply understand and develop important business skills such as leadership, communication skills, critical thinking, and decision making. BBA (S & L) is an appropriate course to undergo in order to meet the demands of managerial roles in shipping and logistics business. The program helped me to adopt managerial approach from the beginning of the program toward various business issues. I also learnt about the competitive business world in which public as well as private sectors operate. Thus, learning the course opened up several options in public and private sector for me. I feel very confident to pursue my further education – MBA (Shipping and Logistics) in Chennai.

Pushpesh Prabhu

Batch 2016-19

The course provided theoretical and practical knowledge which broadened my understanding about the industry. Fieldtrips were both informative and industry related. Apart from that the internships were vital as I got firsthand experience which further deepened my overall knowledge.
